

“The principle of isolating a state that puts itself outside international law is an important weapon against future wars.”
Franklin Delano Roosevelt, 'World Blueprint', 1943

CALL TO THE UN GENERAL ASSEMBLY AND TO ALL HEADS OF STATE:

You Are Deciding About the Future of Mankind!

On September 7, 2003, Dr. Rath drew attention in The New York Times to the fact that this year's UN General Assembly will be the most important General Assembly since the foundation of the United Nations half a century ago. Only one day later, UN Secretary General, Kofi Annan, called for all Heads of State to “come in person“ to this year's UN General Assembly. One week later Kofi Annan demanded a ‘radical reform’ of the UN if it were to survive.

This reform of the UN System must not only be an administrative change rather than a decisive step towards finally turning the UN into a true World Parliament with ‘One Country - One Vote’ decision taking. Above all, what is needed now is a Constitution for the People of the World that guarantees them the most basic human rights - the right to peace, health and social justice.

Matthias Rath, M.D.

Over the past few months Dr. Rath has raised his voice repeatedly to unmask the corporate interests behind the Iraq war.

His voice is globally recognized as a ‘Conscience of the World’.

THE GOAL: A New World of Peace, Health and Social Justice

CONSTITUTION FOR THE PEOPLE OF THE WORLD:

At the beginning of the third millennium mankind stands at the crossroads. On the one hand are the interests of six billion people currently inhabiting our planet - and of all future generations - who wish to live a dignified and healthy life in a peaceful world. On the other hand is a small corporate interest group denying the whole of mankind these basic human rights for one reason only - financial greed.

In this situation, we, the people of the world, have the choice: we either continue accepting the yoke of those investment industries forcing wars and diseases upon us or we liberate ourselves from these burdens and start building a world determined by the principles of peace, health and social justice.

We, the people of the world, recognize that never before in the course of history have we been more united to preserve peace, to terminate the investment ‘business with disease’ and to bring to justice those who sacrifice peace and health for corporate gain.

Therefore, we the people from East and West, North and South, from rich and poor countries have decided to create a world of peace, health and social justice for ourselves and generations to come.

As our fundamental rights we proclaim:

THE RIGHT TO PEACE. We, the people of the world, are determined to defend our right to peace with all means available. In the age of weapons of mass destruction war is no longer an option for solving international conflicts. We will make sure that those who conduct wars without an explicit mandate by international law will be held responsible and will be brought to justice. We will not rest until this is accomplished because we recognize that this is the only way to protect our planet from destruction.

THE RIGHT TO LIFE. We, the people of the world, are determined to defend our right to life with all peaceful means available. We will not rest until all factors shortening the life span of people on our planet are eliminated. We will fight hunger, malnutrition and other factors already killing millions of inhabitants of our planet each year including infants and children. We will also

terminate the ‘investment business with disease’ as the result of which more people have died prematurely from preventable diseases than in all wars of mankind put together.

THE RIGHT TO HEALTH. We, the people of the world, are determined to defend our right to health with all means available. We will make sure that the pharmaceutical ‘business with disease’ the deliberate promotion of diseases for corporate gain, is outlawed worldwide. We will hold responsible those who deliberately promote diseases and those who withhold life-saving information on natural, non-patentable therapies. In providing health to our communities and in implementing national health care programs we will focus on effective and safe, natural health approaches. The primary goal of any health care strategy is prevention and eradication of diseases.

THE RIGHT TO SOCIAL JUSTICE. We, the people of the world, are determined to defend our right to social justice with all peaceful means available. We no longer accept that two out of three inhabitants of our planet live in poverty and illiteracy. We will make sure that the resources of the world are redistributed in a way that provides education and a dignified life

for every citizen of our planet. To finance this redistribution we will use the financial resources liberated from terminating the multi-trillion dollar ‘business with disease’ and from decreasing military expenditure.

We recognize that as a precondition to establish these important human rights those interest groups promoting war and disease need to be brought to justice for sacrificing the lives of millions of people and for committing other crimes against humanity.

This will remove the last obstacle for the people of the world to terminate the ‘Dark Ages of Disease, War and Injustice’ and start building a ‘New World of Peace, Health and Social Justice’.

On behalf of the people of the world -

Matthias Rath, M.D.
Proclaimed in The Hague, June 16, 2003

THE FIRST MILESTONE: Liberation of Human Health

THIS WORLD CONSTITUTION is no longer an illusion - its key points can and must become reality soon. The precondition to accomplish these important goals is the liberation of human health from the yoke of the trillion dollar investment ‘business with disease’ represented by the pharmaceutical industry.

THE PHARMACEUTICAL INDUSTRY was not only the largest benefactor of the current war against Iraq but also instrumental in suppressing one of the most important discoveries in human health ever - the eradication of cardiovascular disease by natural means.

THIS BOOK summarizes this medical breakthrough that will lead to the elimination of heart attacks, strokes, high blood pressure, heart failure and many other of today's most common diseases.

THIS BOOK documents that these diseases are not genuine diseases, but rather result from long-term deficiency of vitamins and other essential nutrients in the cardiovascular cell metabolism - and they are preventable.

THIS BOOK outlines the principle and unsolvable conflict between the pharmaceutical ‘business with disease’ and natural medicine. On one hand are the financial interests of the largest investment industry on earth that are based on patented drugs that merely cover symptoms - but ignore prevention, root cause treatment and eradication of diseases. On the other hand stand non-patentable but effective, safe and affordable natural therapies that will lead to effective control and eventually to the elimination of diseases.

THIS BOOK IS A BLUEPRINT FOR A NEW EFFECTIVE HEALTH CARE SYSTEM - FOR EVERY COUNTRY IN THE WORLD.

“One day there may even be wars just to prevent this breakthrough from being widely accepted. This is the time, when you need to stand up!”

The late Nobel Laureate Dr. Linus Pauling about Dr. Rath's discoveries documented in this book.
