

Polish Democracy threatened by Brussels EU

This week the so-called "Council of Europe" is investigating whether Poland is still a democracy. This is a bunch of non-elected bureaucrats acting as a flagship of the "Brussels EU Commission" – another bunch of unelected 'commissars'. They are appointed by corporate interests to rule Europe with the help of an army of over 50,000 bureaucrats – an army of unelected bureaucratic clerks acting on behalf of the same interests. So what about the "EU Parliament"? It's merely a fig leaf for an undemocratic structure that cannot even initiate legislation – a hallmark of a democracy.

The people of Poland should know the dark history and the goals of the Brussels EU before allowing this body to humiliate the dignity of the Polish people.

MEET IG FARBEN

IG Farben was a criminal cartel formed by Bayer, BASF, Hoechst and other German chemical-pharmaceutical companies with the goal of world conquest. It was the driving force behind WWII. During the Nuremberg war crimes tribunal (1947/48), its role was summarized as follows: "Without IG Farben WWII would not have been possible." Several executives of IG Farben were sentenced in Nuremberg for mass murder, slavery and other crimes against humanity.

MEET CARL WURSTER AND HELMUT KOHL

Soon thereafter, these executives were reinstated to steer the flagships of German industry. Carl Wurster, the IG Far-

ben executive responsible for the production of the Cyclon B gas used in the gas chambers of Auschwitz, became CEO of BASF. He became the mentor of a young politician who was promoted from being a BASF lawyer to the office of Chancellor of Germany: Helmut Kohl.

During 16 years in that office, Kohl strategically built the Brussels EU into the global politburo of the German chemical-pharmaceutical cartel.

MEET HELMUT KOHL AND ANGELA MERKEL

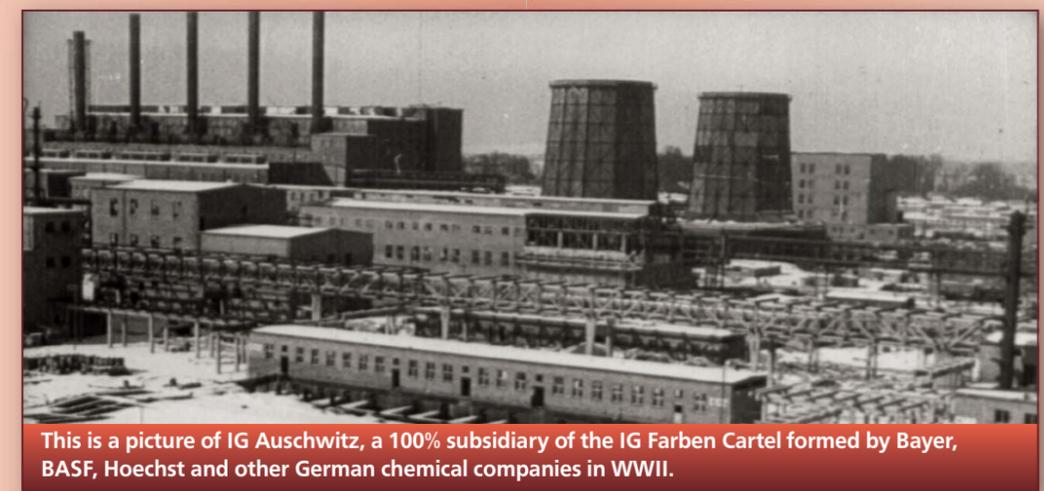

After several financial scandals and a landslide election loss in 1998, Kohl had to relinquish power to his ambitious successor, Angela Merkel, whom he had been grooming and preparing for the role of the cartel's political puppet.

MEET WOLFGANG SCHÄUBLE

The other protege of Kohl, and his designated heir as head of his party, was Wolfgang Schäuble. Unfortunately, Wolfgang got involved in one of the greatest money-laundering scandals in German political history and had to resign - almost bringing down the entire political party in the process.

Today, this colorful duo, Merkel and Schäuble, are attempting to subjugate the people of Europe to the same corpo-

rate interests to whom they owe their political careers.

MEET THE POLITBURO OF THE DRUG AND CHEMICAL CARTEL

After the German cartel had failed to conquest Europe and the world by military means in WWII, they are now pursuing the very same goals by means of financial bribery and political coercion. Their vision of Europe for the centuries to come consists of a hegemonic Germany surrounded by vassal states.

The 'government' of Europe - the EU Commission - is unelected and therefore democratically not legitimized. These figures, appointed by cartel interests, are trying to run Europe with the help of an army of more than 50 thousand paid technocrats. The EU parliament is little more than a fig leaf and lacks the basic rights of any democracy, such as the right to initiate legislation.

To disguise their true nature as a corporate dictatorship, the Brussels EU attacks any government that refuses to subject its people under the rule of the cartel and tries to defend its national sover-

eignty and dignity. The latest victim of such attacks is the newly elected government of Poland.

MEET WALTER HALLSTEIN

Who was the chief architect of such an undemocratic construct? His name is Walter Hallstein, a prominent German lawyer who represented the Nazi state at the decisive 1938 meeting with the fascist Italian government that planned for a post-WWII Europe under Nazi/Cartel control.

Nineteen years later Hallstein was again in Rome. This time, he was one of the twelve signatories of the Treaties of Rome, the founding documents of the Brussels EU. With his experience, spanning a quarter of a century, he was the chief architect of these treaties and - not surprisingly - was appointed the first head of the EU Commission, a post he went on to hold for almost 10 years. The Cartel had succeeded in making one of their own the first "king" of a cartel-run Europe.

MEET AXEL SPRINGER AND PAUL CARREL

The German Axel Springer SE Group is one of the largest media groups in Eu-

rope today. In the 1950s, one of the closest advisors to its founder, Axel Springer, was Paul Carrel, who had been the propaganda chief in the Nazi foreign ministry under Ribbentrop.

Today the Springer Group owns many media outlets in Poland, thereby exerting significant influence on public opinion.

MEET GÜNTHER OETTINGER

Oettinger has been the governor of the federal state in southern Germany. His predecessor and mentor had been the infamous Nazi lawyer Filbinger, who had executed death sentences on deserting German soldiers even after WWII had ended.

In his eulogy at the grave of his mentor, Oettinger had praised him as a resistance fighter against the Nazis. The public outcry that followed ousted him from public office in Germany, whereupon he was thrust into office for the Brussels EU to assume the powerful position of its media commissioner.

Early in 2016 this very same man demanded that Poland should be reprimanded for supposedly anti-democratic decisions made by its government.

BURNING QUESTIONS:

- Do you really think it is a coincidence that you have not heard about IG Farben?
- How many billions of Euros did the chemical/pharmaceutical Cartel and the German governments spent, trying to erase the criminal history of its conquest of Poland, Europe and the world?

These billions have been spent for one reason only: The very same economic interests responsible for WWII still pursue their goals – this time with economic coercion and financial bribes – coordinated via its politburo of the Brussels EU.

Democracy in Europe is threatened by the same interests that had taken it to the abyss before. The new government of Poland has to be credited for recognizing this danger and taking courageous measures to protect its national sovereignty and the dignity of its people.

The people of Poland supporting their government are not alone. Across Europe, entire nations are waking up and unmasking the false promises of the Cartel's political stakeholders in Brussels and at home.
